

RNLI RACE

Dear Club Members,

A number of years ago, our cadets at the time, wanted to raise money for our local RNLI Station. It was then decided along with the committee at the time, that this would be an annual open event, with all the funds going to support our local crews. This year the race is due to take place on Saturday 24th June, with a summer solstice party in the evening, when we will be serving the clubs traditional paella.

Our affiliated members the Aquapigs, held their 20th Anniversary at our club a few weeks ago, where they raised £850 to go to the local RNLI. Conversations have been had, whereby it would be really good, if we can get some of the Aquapigs out to crew in the race. If anyone is willing to helm a boat and take out a new crew member for that race, we may be able to get more boats out on the water than usual, which would be fantastic.

Also if anyone does not want to sail, but is willing to help during the day and evening, we will be most grateful.

As this is a charity race, each boat will need to make a donation (minimum of £5) please.

Following the race, we are hoping to get either all or some of the local RNLI Boats and crew members up to the jetty for a photo opportunity, where we hand over the money raised. It will be absolutely fantastic, if we are able to hand over a donation of £1,000 on the day. This may also help with the council and the ongoing parking issues.

Let's make this RNLI Race and Summer Solstice Party a day to remember.

Look forward to hearing soon from you all.

Kind regards
